# Get Page Numbers from Claude

Turn any PDF into a searchable Q&A bot in seconds

# Why the default fails

> Claude returns text only. > No reference to where the info lives. > You can't verify or cite it.

# The prompt that fixes it

> Tell Claude you're uploading a PDF. > Ask for concise answers. > Require "Source: page X" at the end of every reply.

# How to use it

1?? Upload your PDF in Claude's UI. 2?? Paste the prompt above. 3?? Ask any question about the document.

# Example query

"What are the late?payment fees?" > Claude replies: "Late?payment fees are 2% per month. Source: page 12."

# Tips for best results

- Use clear, short questions. - Keep PDFs under 10?MB for faster responses. - Verify the page numbers if the doc has complex layouts.
