WEEK 3

Turn One Idea Into Ten Posts

Quick system to automate weekly social content

Define the Output Shape

> State "short paragraphs, 1?2 sentences each, mobile?first." > Mention bold limits and line breaks. The model follows this layout automatically.

Feed the Core Idea

> Provide the article title or key point. > Keep it under 10 words. The AI expands this into multiple posts while keeping the shape you defined.

Add Tone Instructions

> Write "direct, honest, no hedging." > Include "use RM, mention KL if relevant." The model mimics your voice.

Generate Multiple Variations

> Ask for "5 versions for LinkedIn, 3 for Twitter, 2 for Instagram." > Each respects the same format rules.

Review & Schedule

> Scan for any missed numbers or tone slips. > Load into your scheduler; you have a week's content in minutes.
