

WEEK 13

Code Smarter

Use Modules and Imports

**You can
use modules to save
time and effort.**

Importing fetches ready made code from Python's cupboard

01

>

02

>

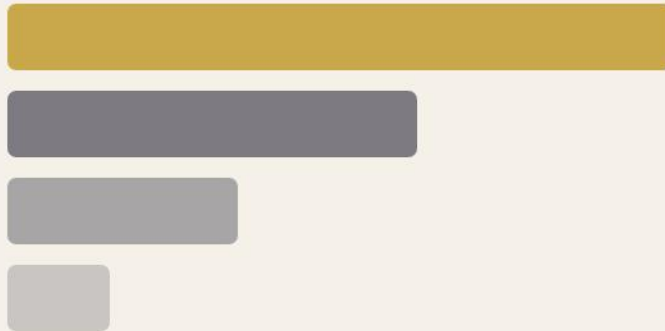

03

>

04

Python ships with **modules** like secrets and string

Use secrets, not random, to generate passwords

01

>

02

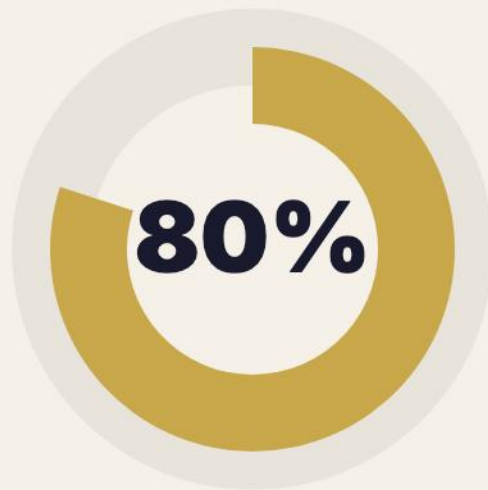

>

03

>

04

Forgetting to **import** modules is a common mistake.
